Brent, you need to get with Toney and help her with a summary of the JD process since you are acting!

**Subject:** FW: Climax Control Here is a copy of the Control we will be talking about Thursday. As you can see, the question for the briefing is if Shaun should meet with them at this point, I guess that is our jumping off point. Karen requested that we basically put together a briefing on the process starting with the JD request, and taking it through to the 404 permit issuance if applicable.

I have the attachments to the letter (about a half-inch of paper) if you want to see them.

Questions or comments?

Thanks all!

Brent Truskowski

Environmental Engineer

Ecosystems Protection Program

Environmental Protection Agency, Region 8
